JOSIAH TURNER, Jr., EDITOR.

THE POLITICAL STATUS IN TEXAS —LETTER OF GENERAL REYNOLDS TO PRESIDENT GRANT.

At the meeting of the cabinet on Friday, the President read a letter which he had received from General J. J. Reynolds, commanding in Texas, in which the latter puts himself squarely on the Davis platform as being the true representative of republican principles in the State. The letter is dated Austin, Texas, Sept 14, and is as follows:

To the President (Personal No. 2)—My Dear General: After your summer recreation I have determined to add to your full labors a few words on the political situation in Texas.

You will remember that about the 4 h of March last there were present in Washington two delegations of Texans, both claiming to be representatives of the republican party of Texas. One of these delegations, headed by Gen. E. J. Davis, was appointed by the Constitutional Convention; the other delegation, headed by Gen. A. J. Hamilton, was self-appointed.

Pursuing the policy which I had decided upon in October, 1867, upon my arrival in Austin, of always endeavoring to produce harmony among all classes of republicans, I declined to permit myself to be identified specifically with either faction, but frankly told their leaders (E. J. Davis and A. J. Hamilton) that I would recommend for office men of both factions whom I was satisfied would make good officers. The federal appointments were pretty evenly divided between the two factions, much to my gratification, as I still hope to see harmony brought about.

The radicals (E. J. Davis's wing) charged while in Washington that the conservative republicans (A. J. Hamilton's wing) had entered into a coalition with the democrats of the State to support A. J. Hamilton for Governor, and in turn to be permitted by him, if elected, to exert their influence with the new State government. I then offered to denounce this coalition to you on the production of satisfactory evidence that it existed. The evidence was not produced; I said nothing on the subject, returned to Texas, and have endeavored to keep myself well informed on all questions of public interest, and especially those affecting the reconstruction of the State.

I traveled from New Orleans to Galveston with Judge J. H. Bell, who is one of the leading men in the A. J. Hamilton faction. He is an ex-Confederate judge. In conversation about Texas politics, I urged upon Judge Bell that all republicans should attend the convention that had been called by the radicals to meet at Galveston on 10 h of May, and there harmonize, bring out their candidates and cement the party in the State. He emphatically opposed such action. The same course of conduct was pursued by A. J. Hamilton, Governor Pease, Col. Haynes and all the leading men of that wing.

The convention met in Galveston on the 18th of May, and, without transacting much business, adjourned to meet in Houston on the 7th of June. At this last convention E. J. Davis was nominated for Governor. A. J. Hamilton, Pease, Bell, Hayes, Longley and many other prominent conservative republicans were in Houston at this time, but took no part in the proceedings of the convention.

I am assured by parties in whom I place reliance that overtures were made at this convention by the radicals, and rejected by the conservatives.

A ticket, with A. J. Hamilton for Governor, and E. J. Davis for Lieutenant Governor, might have been nominated then and there, and would have produced harmony in the republican party, but for the persistent opposition of the A. J. Hamilton conservative faction.

This convention might have been larger or another one held, and for the same opposition, and to day the only organized republican party in Texas is that headed by E. J. Davis.

The conservative faction have opposed all organized concert of action in the republican party. It is believed that the reason for this action is found in the fact that, although the democrats will not openly affiliate with the conservative republicans, many democratic papers advocate the election of A. J. Hamilton for Governor; some of them place his name at the head of their papers; others do not announce his name, but support him.

The conservative republicans who pretend, especially when in Washington, to stand on the reconstruction laws of Congress, nevertheless come right to Texas and in their district conventions nominate men for office who cannot qualify according to these very laws. (Examples are, Stribling, of San Antonio, for Congress, and McFarland, of Austin, for the State Senate.)

They denounce such men as General William T. Clarke, who was nominated for Congress by a convention, but not of A. J. Hamilton men. No fault can be found with such men as William T. Clarke, whose military and civil records are without blemish. No reason can be given for any republican to oppose such men as Clarke, unless, to be sure, they are included in the class that A. J. Hamilton has denounced from the stump, and called carpet-baggers and scallawags.

The circumstances all considered, I am constrained to believe that the coalition which has been charged as existing between the conservative or A. J. Hamilton republicans and the Democrats (generally ex-rebels) does actually exist.

The platforms of the two wings of the republican party are precisely the same.

The radical wing set out their professions of adherence to the reconstruction laws of Congress, and present for office men who are qualified under these laws.

The conservative wing frequently nominate men for office who are known to be disqualified under the reconstruction laws, but who are also known to be acceptable to the democrats.

The success of the A. J. Hamilton faction, as it will be produced by democratic votes, will be the defeat of republicanism in Texas, and will put the State in the hands of the very men who during the entire period of the rebellion exerted every nerve to destroy the Union, and who have uniformly opposed the reconstruction laws with a persistency worthy of a better cause. This letter is already too long; use it as you please. Believe me, very truly yours,

J. J. REYNOLDS,
Brev. Maj. Gen. U. S. Army.

DOTY'S WASHING MACHINE,

LATELY MUCH IMPROVED,

AND THE NEW

UNIVERSAL CLOTHES WRINGER.

Improved with ROBERTS'S PATENT DOUBLE COG-WHEELS, and the PATENT STOP, are now unquestionably far superior to any apparatus for washing clothes ever invented and will save their cost twice a year, by saving labor and clothes.

Those who have used them give testimony as follows:

"We like our machine much; could not be persuaded to do without it, and with the aid of Doty, we feel that we are masters of the position."—*Rev. L. Scott, Bishop M. E. Church.*

"It is worth one dollar a week in any family."—*N. Y. Tribune.*

"In the laundry of my house there is a perpetual thanksgiving on Mondays for the inventor."—*Rev. Theodore L. Cuyler.*

"I heartily commend it to economists of time, money, and contentment."—*Rev. Dr. Bellows.*

"Every week has given it a stronger hold upon the affections of the inmates of the laundry."—*N. Y. Observer.*

"Friend Doty—Your last improvement of your Washing Machine is a complete success. I assure you 'our machine,' after a year's use, is thought more of to-day than ever, and would not be parted with under any circumstances."—*Solon Robinson.*

"Your Washing Machine has been in daily use in our laundry and the housekeeper expresses herself as highly pleased with it. It certainly accomplishes a greater amount of work, with less labor, and does not wear the clothes near so much as the old fashioned wash-board. By using it one laundress is dispensed with."—*Wm. M. F. Round, Superintendent of Juvenile Department of St. Catherine's Nursery, N. Y. City.*

PRICES.—A Fair Offer.

Send the retail price Washer $14, Extra Wringer $9 and we will forward either or both machines, free of freight, to places where no one is selling; and so sure are we they will be liked, that we agree to refund the money if any one wishes to return the machines, free of freight, after a month's trial, according to directions.

No husband, father or brother should permit the drudgery of washing with the hands, fifty-two days in the year, when it can be done better, more expeditiously, with less labor, and no injury to the garments, by a Doty Clothes Washer, and a Universal Wringer.

Canvassers with exclusive right of sale make money fast selling them.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

THURSDAY, SEPTEMBER 30, 1869.

WHAT WE NEED; WHAT WE HAVE; WHAT WE OUGHT NOT TO HAVE HAD.

This State needs more labor and more capital; every one will concede this. This labor and capital ought to be applied to the development of our agricultural, mechanical and mineral resources. Every sensible man will concede this. We have invited labor and capital to come into the State, but very little of it comes. Now and then a gentleman comes and settles down and goes to work in a proper and commendable way; such men the people take cordially by the hand and welcome them; they are sincerely glad to see such persons come among them. But we repeat, such cases are few indeed. Since the close of the late war, a great many strangers have come into the State, for what? Have they come for any good purpose? Let any one answer in the affirmative if he can. Look all over the State from one end of it to the other, and you see Northern men, and in ninety-nine cases out of a hundred, these men have no employment, they have no legitimate means, and are seeking only after office and plunder. We submit it to every body, even to native Radicals, black and white, to say if this is not true. Is it not?

Take the prominent Northern men among us as an illustration of what we say, and see how the matter stands. Take Gen. Abbott, (who don't fight,) Littlefield, the "Ring" master, Tourgee, called by Billy Henderson, the "jail-bird," Laflin, the Bowery boy, who ordered Holden not to issue the writ of election in Pitt, French the "big Indian," Abbott's second in the fight that didn't come off; Heaton, of whom not a great deal is known, and Menninger, the man who gave the little negro ipecac to make her throw up the stolen cake. What, we ask the people of all parties, have these men been worth to the State? Did they bring capital to the State. No; they came here mere adventurers, and all they get is so much clear gain. They had all to gain and nothing to lose. Did they settle down and engage in some honest employment? No: They at once sought to corrupt the black people of the State, and through their votes to get into power and office, and they succeeded. What next did they do? They framed for the people a system of State Government at once corrupting in its tendency and extravagant in its operations. More and worse than this, they corrupted that class of our people, black and white, who consented to come under their influence, to a degree terrible to contemplate; they have bribed and corrupted every department of the Government, to a greater or less extent. Our native people who are in office in any department of the State Government, never would have thought of the crimes they have perpetrated against the State and the people, unprompted by these bad and irresponsible men. No: These Northern men, appropriately called "carpet-baggers," prompted the crimes, extravagance, and outrage of these native Radicals.

Does anybody believe that, if the "carpet-baggers" had been out of, and away from, the Legislature, that body would have made appropriations to the amount of $36,970,600 at one session? Does anybody believe that the native Radicals would have perpetrated the penitentiary swindle? No; no one so believes. The truth is, as we have stated, the carpet-baggers are at the bottom of all this mischief and crime; they prompted it; they are the ringleaders.

The Governor of the State knows this; the Lieutenant Governor knows it; the Judges of the Supreme Court know it; the members of the Legislature know it, and yet they all cordially sustain these "carpet baggers," and put them in power and office. There is Abbott in the United States Senate; there is Heaton and Deweese in Congress, (the latter of whom, it is rumored, will not return to the District he represents, for "good and sufficient reasons,") there is Menzinger, Secretary of State; Ashley, Superintendent of Education; Fisher, Adjutant General; Tourgee, Judge, and Laflin, French and a host of others, in the Legislature, and scores of them in the county offices of the State. Can any man in the State, Radical or otherwise, say that these men have done any good, the slightest degree of good? We know that no one can answer, yes. On the contrary, don't every body, even these men themselves, know that they have been the chief source of crime and evil in the State, ever since they came here? The *people* know and feel the truth of what we say; so does the Governor, the Lieutenant Governor and the Judges, and yet they sustain these pests and bloats and blasts upon our body politic.

These men brought that secret and murderous engine of crime, the "Loyal League," into the State. This organization has been the great means of their success, and it has wrought out its purposes, public and private, most effectually. It has been and is the source of four fifths of the crime, great and small, in the State. It has been the means and cause of Murder, Arson, Rape, Burglary and Larceny; it carries its power and influence into the Legislative Halls, the Executive office, into the ballot-box and the Jury-box. These bad men brought this source of crime among us. Who is surprised that it has given rise to, if it has not created, that other terrible organization, the Ku Klux? The wonder is, that there are not more Ku Klux. Yes, these bad men brought this curse of curses among our people; and yet they are in high places!

How long can civilization last, at this rate?

NEWS FROM ROCKINGHAM—NOTHING FROM JO.

The *Standard* called on its friends in Rockingham for a report of our speech.—A report has come, but nothing about the speech. Nor does the correspondent mention our "beloved's beloved Jo." If our readers want news from Jo, we refer them to the Petersburg, Richmond, Norfolk and Baltimore papers, where Jo is made to figure in a way worthy of a Speaker of the Radical House of Representatives.

To think that the papers of a sister State should publish such things of the Speaker of the House of Representatives of North Carolina! and his Father, too, is Governor, and that is worse than the son's being Speaker. The news from Rockingham is to be found in the *Standard*, in the column headed "correspondence."

Under the heading is, "We are not responsible for the views of correspondents."

Then comes a long communication from a correspondent signed "Rockingham," in which the writer says, "the SENTINEL contains so many misrepresentations, not to say knowingly false statements, that justice calls for a true statement of facts." "Rockingham" says "the evidence of Lewis Watt and his two sons, being in favor of Mr. Groom, threw a bomb-shell into the camp of the prosecutors, and they dismissed the case."

The affidavit of Lewis Watt and son was, that Groom offered them ten dollars to burn the houses of some half dozen gentlemen. "Rockingham" says, "Judge Settle and Rag land, the Clerk, were on hand to aid an honest man and Republican County officer, as far as they could, compatible with justice and public safety."

The Judge had better have been at home, keeping his law students sober. He "on hand to aid an *honest* man!" Where is the recorded evidence of the witnesses in the Groom case, that Groom should be called "honest"? What said Henry Thomas, as respectable a man as there is in Rockingham? He testified, on the trial, that the character of Groom was very bad. Groom, being present, asked Thomas if "his character was bad *for* truth and honesty." The answer was, "yes, it is."

Groom shocked even his own wife, when he talked of burning innocent women and children. She told him "if she was that wicked and mean she would not let it be known."

Mr. E. D. Whilt swore that the character of Groom was bad.

Mr. C. J. Williams, on oath, gave Groom a bad character.

Mr. S. S. B. Smith, [illegible] man whose truth and veracity no man will question. He has known Mr. Thomas, for fifty years, he gives Mr. Thomas a good character, as will every citizen of Rockingham who has himself a good character, at the same time Mr. Smith testified to the bad character of Groom.

"Rockingham," thinks Groom vindicated because Lewis Watt and his sons were committed to jail for false swearing against Groom. It is not alledged that Mr. Thomas swore falsely, and his evidence goes to show that Groom was capable of, and had talked of doing, what Lewis Watt swore he attempted to bribe him to do. The evidence of Mr. Thomas was sufficient to have bound Groom over to Court, and to keep the peace. But Radicals make a poor out of trying Radicals.

HANDY AND SAMUEL.

The SENTINEL of Tuesday stated that Handy Lockett and Professor Brewer of Chapel Hill were walking the streets, not arm in arm, but side by side. This is a mistake, and we beg pardon of Handy Lockett for representing him as walking the streets with Professor Brewer. It was not Brewer, but Samuel S. Ashley, Superintendent of public Instruction, who, for short, is called Pilgrim, *alias*, Cape Cod, *alias*, Buzzards bay Ashley. Ashley looked as if he was prophesying to Handy about the schools and the adoption of New England books for Southern Schools.

This is the first time we have ever seen Ashley on the Street with a native gentleman; he seemed full of comfort at the thought that Handy honored him with his friendship and company. Handy was somewhat assuming, and seemed to say to the passers by, "look and see what masterdom I have acquired over this white man." From the first coming of Pilgrim Ashley to this city of Holden, a very close intimacy grew up between him and Handy, which has been cemented into high regard and everlasting friendship. There is an easy carelessness in their walk and talk which goes to show the equality of their friendship. There is no competition or rivalry between these two bosom friends, unless it be in their display of spectacles. In this Handy beats Samuel.

RATHER DRY.—Notwithstanding the heavy rain we have had, the *Standard* is rather dry, in the absence of the Governor, the Supreme Court and the Code Commissioners.

When the Governor returns, the organ will improve; when the Code Commissioners assemble, Victor and Tourgee will add something to the interest of the carpet bag organ; and when the Supreme Court gets back, we shall probably have a few bright scintillations from that source. But it is awful wishy-washy at present.

The life-saving stations on the New Jersey coast are to be thoroughly equipped.

On last Tuesday morning L. D. Wilkie, Radical representative from Jones county, in the State Legislature, and the man who has rendered himself, for the last eighteen months, so infamous in that section, was brought before Judge Thomas, (also a Radical) for examination, charged with complicity in the attempted assassination of Mr. David Green, of Jones county, at the Court House in Newbern.

We take the following from the *Journal of Commerce:*

"Wilkie was arrested on the charge on Sunday night, the 19th inst., and bailed on Monday following by Judge Thomas, the sum of $10,000 being required for his appearance. He made two attempts to get Justice Berry to admit him to bail—one on Sunday night and the other on Monday morning—both of which were ineffectual the Justice holding that the offence was not a bailable one.

The examination was commenced by Judge Thomas reading the warrant issued by Justice R. T. Berry, of Craven county, for the arrest of the prisoner.

The warrant was issued upon the affidavit of Mr. Frank Green, brother of the wounded man.

His Honor then read an affidavit of L. D. Wilkie that he believed it would be dangerous for him to travel in Jones county, or go there for the purpose of being tried. For this reason the case was turned over to His Honor for examination.

The prisoner pleaded "Not Guilty" to this charge or of any knowledge to the attempt at assassination.

Mr. David J. Green, father of the wounded man, was called sworn and deposed:

I live in Jones county. I am the father of David Green. He was shot by somebody. I don't know by whom. I have seen him several times since he was shot. He was shot on the 15th of September. He was shot within seventy or eighty yards of the house where I was born and raised. I saw the persimmon tree where he was shot at. The limbs were shot off. I saw him the next day after he was shot. He was badly shot all through the back and head and in the shoulder and side down to his hips. I never knew Wilkie or any one in his presence, offer a reward to kill my son. I do not know, of my own knowledge, that Wilkie ever procured any one to kill him.

His Honor ruled the witness' testimony out, as far as regarded what he had heard. In conspiracies the case was different. Then the examination could take a wider range; but in the present instance the evidence must be confined to what directly affects the prisoner.

Hon. C. C. Clark, for the prosecution, called His Honor's attention to the fact that in the trial of the Lenoir county prisoners, a short time since, he had ruled that such evidence was admissable; that in case of a trial by jury the rules of evidence must be enforced, but when a prisoner was brought before a magistrate on preliminary examination, a wide range was allowed."

Judge Thomas remained firm in his ruling and after hearing Judge Green, counsel for the prosecution, he discharged the prisoner.

THE INFERNAL REVENUE.—A contemporary is thus facetious over the decisions of the revenue officials: "The latest decisions of the Commissioner of Internal Revenue cover the following points: Parties using paper collars must use them from the original package—that is, from the box in which they have been purchased, and a three cent revenue stamp must be attached to each one when put on. When the collar becomes soiled, and is turned with the clean side out, it must receive another three-cent stamp, and must also be conspicuously stamped with the word 'used.' Boxes when emptied cannot be used a second time, but must be delivered in the room where emptied, and the assessor furnished with a certificate of the fact. If thrown out at the window, or carried out in the coal scuttle or washtub, such boxes will be subject to export duty. Bootblacks are required to use their blacking just as they find it when the box is opened, adding nothing to it whatever. The act of spitting in the box and smearing the contents with the brush constitutes the bootblack a mixer, or rectifier, or manufacturer, of blacking, and he must pay the ordinary manufacturer's license. Each boot blacked, for which the sum of five cents is payed by the wearer, must receive, at the expense of the boot-black, a four and-three quarters-cent stamp. All Englishmen by the name of Hale who are engaged in the business of pronouncing the name without the H shall be considered manufacturers of 'ale,' and must pay the license required of all brewers and distillers. Parties engaged in building castles in the air with the proceeds of the highest prize in future drawings of the lottery must be assessed twenty per cent. on the amount thus derived and invested, which twenty per cent. must be paid in gold.

WANTED, A PEERAGE AND HERALD'S COLLEGE.—The rapid accumulation and growth of crests on carriages, note-paper, and silver, of cockades and liveries on coachmen, is getting to be rather bewildering, and some public spirited individual should get an appointment from Grant to compile a book of heraldry for reference. In all our principal cities, and many unprincipal ones, the number, variety, and gorgeousness of the liveries of the "gentlemen on the boxes" must strike every one. But how is one to know that so and so is the livery of the Gunnybags when the Shoddies have the same? Nothing but the direst confusion will result from the present habit of every man prescribing his own flunkies' clothes. It is clearly the duty of the Government to systematise this thing. Brown must not be permitted to put his man in the colors previously selected by Jones, who got rich first; nor must Noodle aggravate Doodle by his similarity of taste. The powers that be could make a good thing of it by taxing these aristocratic trappings, and making them pay for the privilege a crest and a livery give in distinguishing the exhibitors from the "great unwashed." At the same time, our nobility and gentry should be protected in their privileges, and those who did not come over with the conqueror (Grant) should not be considered entitled to these marks of distinction.—*Courier Journal.*

THE OCTOBER ELECTIONS.—There are but three weeks now intervening before the October elections. Indiana, Iowa, Nebraska, Ohio and Pennsylvania hold their elections on the second Tuesday, the 12th of that month. In Indiana the republican majority for Grant was 9 572, and the republican majority on joint ballot in the last Legislature was 30. Governor Baker was elected by 961 majority. In Iowa, Grant's majority was 46,359, and the republican majority in the Legislature was 107. Grant's majority in Nebraska was 4,200, and Governor Butler's 2 491. The Legislature was strongly republican. In Ohio Grant's majority was 41,428, and the republicans elected Sherwood Secretary of State last year by 17,583 majority. The Legislature had 10 democratic majority on joint ballot. In Pennsylvania Grant's majority was 28,808, and General Hartranft's 9,677. The republican majority in the Legislature was 27 on joint ballot.—*Baltimore Sun.*

OUTLAWRY IN TEXAS—A JUDGE WAYLAID AND KILLED.—On the morning of Sunday, the 5th instant, intelligence reached the town of McKinney, Texas, that Hardin Hart, the judge of that district, and District Attorney J. A. Gray, of McKinney, while riding from Bonham to Greenville the day previous, were fired upon from the brush at a point near Bonham and instantly killed. One of the escort was wounded. The McKinney Messenger gives the following particulars:

"Judge Hart's party, which consisted of himself, Judge Gray, a corporal and six privates, left Bonham for Greenville one hour before daybreak last Saturday. After journeying seven miles, and having passed the last house near Bonham, the party came to a place where each side of the road was cordered with dense thickets. Behind this breastwork the assassins were lying. Some three quarters of a mile further on was another breastwork, similarly constructed, and no doubt screening other members of the band, the object clearly being to kill Judge Hart at the second ambuscade, provided he should escape the first.

Just as he and the foremost of his party reached a point in a line with the opening or passway which had been cut into this thicket, the assassins opened fire. At the first volley Judge Hart was struck in the right arm, which was broken in two places; a shot grazed his right side, cutting through the skin, but doing little injury; several shots struck the stock of a Henry rifle which he carried in his saddle, and his horse, which plunged madly forward and threw the wounded rider heavily to the ground. Judge Gray escaped without a scratch, but his horse went down with six buckshot in the head and two spencer balls through the neck.

Four of the escort, panic stricken, wheeled their horses and galloped in the direction of Bonham. The corporal and two of his men dismounted and returned the fire of the brushmen, holding them in check until Gray, who had gone to the assistance of Hart, succeeded in removing him a distance of thirty yards into a dense thicket, which effectually screen them from observation.—The bandits stripped Judge Gray's horse, taking his saddlebags, saddle and everything of value, and passed close to the place where he and Judge Hart were secreted, but without discovering them."

FRENCH SOLDIERS EATEN BY CANNIBALS. The London Daily *News*:

"If any of us look forward to being eaten by cannibals, he may wish to be informed to know that the savages who may devour him are by no means devoid of refinement in their culinary disposition. Some French soldiers were lately taken prisoners by the Kanaks, and one of them was killed and eaten. His comrades describe the process: The Kanaks first decapitate their victim, a matter of no small difficulty, considering the bluntness of their hatchets. Ten to fifteen blows are necessary. The body is hung up to a tree by the feet, and the blood allowed to run out for an hour.

Meanwhile a hole a yard and a half deep, and a yard wide, is dug in the ground.—The hole is lined with stones, and then in the midst of them a great fire is lit. When the wood is burned down a little and glows with heat, it is covered over with more stones. The man is then cleaned out and divided into pieces about a foot long, the hands and feet being thrown away as worthless. The pieces of the man are placed on the leaves of a large rose tree peculiar to the tropics. The meat is surrounded with cocoa nuts banana, and some other plants noted for their delicate flavor. The whole is then tied together firmly; the fire is removed from the pit; the meat is placed in among the hot stones, and thus, carefully covered, is left to cook for an hour. Women do not partake of this warriors' feast.

A GLOOMY VIEW OF LABOR IN CALIFORNIA.—A San Francisco letter states that there are hundreds of men out of employment in California, and they cannot get work. Those who do not get work have to carry their beds from place to place. When the harvest is done there is nothing for the laborer to do until the rain falls—about the 1st of November. The San Fanchico papers publish only the good side of affairs in California, and say nothing about the bad side. Farm hands cannot average more than six months' work in a year. California is a better country for capital than for labor. A farm laborer in California must have his own bed in every instance, or sleep in the hay-stack; and if he asks the owner of a farm where he applies for work, he is told to buy his own blanket. A man has to do his own washing also, or pay from $1.50 to $3 a dozen for washing, and then go from one mile to two to get it done, except in the city.

GLASS SPECTACLES,

Superior to any other in use—constructed in accordance with the sciences and philosophy of nature, in the peculiar form of

A CONCAVE CONVEX ELLIPSIS,

Admirably adapted to the organs of sight, and perfectly natural to the eye, affording altogether the best artificial help to the human vision ever invented. Used only by

MORRIS BERNHARDT,
SPECTACLE & OPTICAL MANUFACTURER.

THE ADVANTAGES of these Spectacles over all others are:

1. **They can be worn with perfect ease** for any length of time at one sitting, giving astonishing clearness of vision, by candle or any other artificial light, comfort to the spectacle-wearer hitherto unknown.

2. **How to select Glasses.** It requires professional guidance even when a good article is offered. Dr. Bernhardt not only has the best Glasses that can be found in the market, but carefully examines the eyes of his patients, and gives indispensable advice as to the proper selection of them.

3. **When the eyes ache or pain through** the action of a bright light, such as is reflected from the snow, sunny weather, white paper, and in reading, writing or sewing, or vivid colored bodies; these lenses, by softening the rays, effect a most agreeable sensation and give great relief.

4. **These spectacles are scientifically** adjusted to every case of defective sight with unerring accuracy, whether arising from age, strain, over work, or premature decay, by Dr Bernhardt on a new and exact principle, entirely his own, which has seldom failed to be correct.

5. **After several years of public practice,** adjusting spectacles to patients under every aspect of defective vision, as well as experience in an extensive, long established business in his Optical Stores, both here and in Europe, Dr. Bernhardt considers it a sufficient guarantee of his ability to supply such glasses as are best calculated for the assistance of imperfect sight.

6. **M. Bernhardt, to signalize himself** from the host of pretenders in his profession, with pride submits for inspection, copies of testimonials he has received from medical gentlemen of the most unquestionable respectability and talent in America; also a number of certificates from well known gentlemen of distinction who have used his spectacles—the originals of all which he will be happy to show to those who may request it. The use of any of the following names or certificates hereunto affixed, without an actual possession of the same, would be a forgery, a capital offence, punishable by State imprisonment.

Testimony of Recommendations from Medical Gentlemen, Professors of the highest Opthalmic talent in Raleigh, N. C., and in the Union.

Raleigh, Aug 24, 1869.

I have carefully examined Prof. Bernhardt's Spectacles, and take great pleasure in recommending him to those who, having defective vision, can be made to see more clearly and distinctly by the use of glasses. He has wonderful skill in this respect. The pair he has supplied me with are of Brazilian Pebble, of most superior quality and excellent finish. They enable me to see how to read, or write, at the ordinary focal distance, as clearly and distinctly as I did twenty years ago. I very cheerfully bear testimony both to the Professor's skill and to the wonderful properties of his glasses.
CHAS. E. JOHNSON, M. D.

Raleigh, N. C., Aug. 24, 1869.

I take great pleasure in saying that the Glasses I have obtained (and am now using) from Dr. M. Bernhart are to me a source of greater comfort than any I have previously used; my own experience fully sustaining the testimonials of excellence and commendation which he has received from gentlemen of science, and high character, in various parts of our country.
WM. G. HILL, M. D.

Raleigh, N. C., Aug 24, 1869.

I take pleasure in stating that I have examined the glasses of M. Bernhardt, Oculist and Optician, and think they are of the best material, and constructed on scientific principles. I would advise those in need of glasses to call on him.
Very respectfully,
F. J HAYWOOD, M. D.

Raleigh, Aug. 24, 1869.

Doctor Bernhardt called at my house and exhibited to me his fine assortment of Australian Crystal Glasses, which are of a very superior quality and workmanship. I take pleasure in saying that the glasses I have obtained from Professor Bernhardt are to me a source of greater comfort than any I have previously worn and cheerfully commend them to those who may be in need of glasses.
W. H McKEE, M. D.

Raleigh, Aug 23, 1869.

After an attentive examination of the various glasses in the possession of Dr. M. Bernhardt, accompanied with his explanation of his mode of preparing and adjusting them, it is with great pleasure I state my belief of his great skill, and of the benefit which those needing glasses must derive from his assistance.
R. S. MASON, D. D.,
Pastor Prot. Episcopal Church.

Raleigh, Aug 23, 1869.

Dr. M. Bernhardt, Oculist and Optician, has fitted me with a pair of Spectacles superior to any article of the kind I ever had before. The material is Australian Crystal, the quality of which renders vision very clear and distinct, and enables me to read and write with as much ease as I did ten or twelve years ago. His assortment of glasses is most complete and the finish apparently perfect. I take great pleasure in recommending him to all who need their sight improved.
DRURY LACY, D. D.,
Late Pres't. of Davidson College, N. C.

Raleigh, Aug. 26, 1869.

It gives me pleasure to bear witness to the extraordinary value and excellence of the glasses prepared and furnished by Prof. Bernhardt. To those who need artificial aid for their vision he will be of the highest service.

Pastor of the Presbyterian Church.

EXECUTIVE DEPARTMENT,
Raleigh, March 26, 1866.

I have examined a large number of the glasses of Prof. M. Bernhardt, and with pleasure certify to their superior excellence. I wear a pair of them and see as perfectly as I could in my youth. They are the best I ever used, and I therefore heartily recommend him to the patronage of the public.
JONATHAN WORTH,
Governor of North Carolina.

State of South Carolina,
EXECUTIVE DEPARTMENT,
Columbia, June 19th, 1866.

Sir: I have made a full and satisfactory test of the Spectacles procured from you, and I have the pleasure to say that the glasses are better adapted to my eyes than any I have ever used. The facility with which you fitted the glasses to my eyes, furnished me conclusive evidence of your scientific skill in optics and your thorough experience as an Oculist.

Your attainments in your profession entitle you to the confidence, patronage and gratitude of the public. I have the honor to be,
Very respectfully yours,
JAMES L ORR,
Governor of South Carolina.

Wilmington, March 31, 1866.

I have examined a number of Professor Bernhardt's Glasses and am now using a pair of them, and take pleasure in testifying that they enable me to see better than any others that I have used, while in his collection there seem to be some adapted to remedy any kind of defect in vision.
THOMAS ATKINSON,
Bishop of North Carolina.

Nashville, April 27, 1867.

The difference between Dr Bernhardt and most Opticians is, according to my observation, that while they pretend to more than they know, he knows more of his business than he professes.

DRY GOODS.

WIDE AWAKE HOUSE!

DOWN STAIRS FULL; UP STAIRS FULL; SHELVES FULL! PILED ON THE COUNTER; PILED ON BOXES AND ALL ABOUT THE HOUSE!

COME TO CREECH'S!!

DRESS GOODS! DRESS GOODS! In great variety; Styles new; Goods pretty, cheap enough to buy.

FRENCH MERINOES,

In which I recognize no competition, as they will be sold just as cheap as they were when Cotton was 10 cents per lb, and money equivalent to gold.

ALWAYS COME TO CREECH'S to buy MERINO DRESSES for my money is as good as anybody's; I bought them as cheap as anybody, and I intend to sell as cheap as anybody. That's the way to talk it.

GOODS FOR MEN AND BOYS' WEAR,

Such as Kentucky Jeans, Tweeds, Satinets and Cassimeres. No better assortment or greater variety in the city. In fact, I have enough to keep the boys, the youths, the young men and the old gentlemen, all warm. Step in at Creech's and look at them before you buy.

HATS! HATS! HATS!

For Gent's, Boys and Children. Pull off your old summer hat; it's too late to wear it now; style is changed. In fact, a new hat looks best, anyhow. Call at Creech's corner and examine, before you buy a new Hat.

SHOES! SHOES! SHOES!

One among the largest and best assortments in the City. Come, pull off your old shoes, throw away those that are worn out, and put on a new pair. Keep your feet dry, and preserve your health. Always come to Creech's before you buy.

Ladies and Misses' Hats! Hats!

No use to talk. The style has changed. Spring and Summer styles are out of vogue; so go to CREECH'S. HE ALWAYS KEEPS THE NEW STYLES.

LADIES' BONNETS.

Some small enough; some large enough; some trimmed; some untrimmed. It won't do you any harm to call at Creech's before you buy.

CLOAKS AND SHAWLS.—A Fine Assortment.

Now don't you think you had just as well step over to CREECH'S, and look. Probably you will save time and money. In fact, that is just the very place to get the worth of your money; and permit me to tell the people, that when they visit the City, to COME TO CREECH'S, for thousands who have come, acknowledge the truthfulness of my assertions.

I have more to say to you, but will tell you the balance at my place of business.

New Advertisements.—The Haw River Flouring Mills used to have an enviable reputation for making first rate flour, and the proprietor says (see advertisement) that he will keep the quality up to the old standard.

Lawrence D. Dietz & Co., Baltimore, alluded to elsewhere.

G. T. Stronach advertises whisky, a very useful article in families that do not get any cow's milk, together with other useful articles.

Run Away.—Two mules attached to a wagon, loaded with Cotton, from Chatham County, ran off, yesterday afternoon, in Morgan Street; the driver, Tom Robeson, colored, falling between the mules, was dragged some fifty yards, but escaped with only a sprained ancle.

Don't forget the meeting on Friday night, of the Building and Loan Association.—See the call of the Secretary.

Yesterday's Work.—Forty-five Deeds &c., were admitted to Probate for registration before J. N. Bunting C. S. C., on yesterday. To-day, according to the construction that has been put upon the law, is the last day of grace for proving deeds, conveyances &c., for registration.

Censurable.—There is a practice indulged in by certain thoughtless or ill-bred young men of this city, which has been pushed to such an extent of annoyance as to call for speedy check or punishment.—We allude to the practice of young men placing themselves near the landing of the steps of the churches, particularly at those of the Baptist and Methodist, with such impertinent glances directed towards the *feet* of the ladies, as they descend the steps, as to richly deserve the application of a cowhide for their *curiosity*. But as cowhiding would be an unpleasant operation to indulge in on the Sabbath, and at the Church, it has been determined to take the names of those who indulge in this ungentlemanly pastime, and hand them over to the Mayor of the city, so that ladies can descend the Church steps without feeling the same unpleasant sensation they would in their dressing rooms with the doors and windows open.

Query.—Was the advent of the Treasurer of North Carolina into Wall Street, New York, last week, the cause of the tremendous agitation in the gold market?

By the way, we understand our Governor refused to see several gentlemen who called on him, last week, in the great metropolis, to make inquiries concerning the interest on the *old* N. C. Bonds. Did the Governor feel a delicacy in talking on this subject, or was it, that he didn't know what to say about it? He ought to have referred to his "Ring Master" the State financial Agent.

Going to Hillsboro'.—We are requested by Dr. M. Burkhardt to say that he will be in Hillsboro' next week, and will remain through Tuesday, Wednesday and Thursday, where he can be consulted by those wishing to obtain assistance to their eyes.

Recorder please notice.

"Push Trade or it will Push You." There is probably no more enterprising house in the country than that of Lawrence D. Dietz & Co. of Baltimore, Importers and Dealers in English, French and German notions and Fancy Goods. They have most certainly pushed trade until their immense facilities are known all over the country. We direct attention to their advertisement in to-day's issue.

We learn from the Local of the *Standard* of Tuesday, Hugh Limbs got twisted off, in the hurricane which passed near Dudley Depot, Wayne County, on Sunday last. It is not stated whether he has recovered from the accident.

Mail Robbery.—A friend in Oxford informs us that he enclosed to us in a letter, about six weeks ago, a bill of money, to have the Sentinel mailed to a friend of his in Tennessee. The money did not come to hand, and, of course there is something wrong about it, somewhere. But we do not attribute any blame or neglect to our Raleigh Postmaster, for he could not possibly have been at his office and at the same time accomplish that wonderful feat of travelling 4,268 miles, attending the meetings of the Board of Commissioners, for which he received pay. (See Register's Report.)

It is only nine-seventy steps from the Post Office to the Court House, where the Board met. Query: Did Calvin walk 4,268 miles between the two points, or was it *inches*? Measure your ground again, Calvin, before you swear to your next account. But as you have already sworn to your 4,268 miles, you must, like the fellow who swore the horse was sixteen feet high, stick to it, even if it should turn out to be inches; for "consistency is a jewel," you know.

Help Him.—A one legged soldier at Gibsonville Guilford county wants employment. He has good use of his pen and says he can write one hundred words in a minute.

Ring Master.—General Littlefield, the Ring Master, is still exhibiting our Governor and Treasurer in Wall Street, for the purpose of Bulling up the Bonds. The sight of two such financial heroes is enough to depress anything.

Chatham Railroad.—The work on the Chatham Railroad is progressing into the suburbs of Raleigh. The hands are at work east of Boylan's bridge, and the embankment is nearly complete to the track of the R. & G. Road, in the vicinity of B. P. Williamson's Brass and Iron Foundry, where, we understand, it is contemplated to erect a station house and ticket offices for all the Roads in common.

We are informed that the hands at work on the excavation near Boylan's bridge, yesterday, opened five graves, of the existence of which no one now living in the vicinity knew anything. Even the bones of those buried in them had amalgamated with their mother earth, and it was only known that they were graves by the outline of the coffin bed.

Gone North.—Blair of the Yarboro' House, started North Tuesday morning, to lay in furniture and fixtures for the new "Blair House," now nearly completed. Every effort will be put forth to have the new Hotel ready for the reception of guests, by the opening of the State Fair.

Split in the Party.—Come home Governor; Galloway, the Republican leader of the Senate, has "cussed" your private Secretary.

William Huskey, your detective appointed to spy upon the people of Orange, has been whipped, and is waiting on the street to see you.

Come home Governor, for Todd's away and there's no Deputy here to keep things straight.

"Come home; come home;
O. Gov'nor, dear Gov'nor, come home."

Base Ball.—We learn that a Base Ball club has been gotten up, composed mostly of the best players of the old clubs of the city; the following are the members:

First Nine.—W. E. Anderson, Wm. Primrose, Sam. C. White, A. P. Bryar, Nat. L. Brown, H. C. Reed, A. W. Winston, Jno. S. Pescud, Wm. H. Mills.

Second Nine.—Edgar S. Lougee, J. W. Allen, A. D. Jenkins, L. M. Hoffman, Jno. C. Blake, V. C. Royster, Wayne Alcott, Jno. C. Syme, A. Smedes.

Third Nine.—Jno. W. Blount, G. F. Snow, Armstead Jones.

It is the design to complete the Club to Four Nines.

Those who have given in their names, and others wishing to do so, are requested to meet at the Express office this afternoon, at 4½ o'clock, for organization, &c.

The Rutherford *Star*, says, that Messrs. T. C. Bradley and Vance Roads, captured two horses near Columbus, Polk county, in the possession of Jake Case *alias* James Smith and another man who escaped, name unknown. The horses are supposed to have been stolen in Anderson county, Tennessee.

Persons desiring information in regard to the matter, can have it by addressing T. C. Bradley or Vance Roads, Columbus, Polk county, N. C.

The first frost of the season in Mecklenburg county, is recorded by our Charlotte exchanges as having occurred Tuesday morning last.

Items from the Hillsboro *Recorder*:

A dancing school taught by a young lady from Raleigh is on the *tapis* at the Shops.

Clem Faucett, an old negro, who has been employed as a railroad guard at the upper Eno bridge, was killed on Thursday morning last by the mail train. He was asleep on the track.

Sally Clark, a white damsel, and a "gushing thing" of an unknown number of summers, but according to report no devotee at the shrine of virtue, fixed her affections upon one of Alric's favored sons. To show her pride in her choice and her defiance of the world's opinion, Sally made various public exhibitions of her fond and impulsive nature. The good people of Hillsboro, not yet being educated up to the Radical standard of social and moral philosophy, looked on in disgust, consequently, one night last week, Sally's head was shaved and her person blacked as black as that of her lover's, and ordered to 'vamoose the ranch," which she incontinently did.

Old Sally Holden, died last Wednesday somewhat suddenly. The negroes say "she trod on something and was pizened."

The Charlotte *Times* speaks of the Senatorial canvass, now going on in Mecklenburg, as progressing satisfactorily for the Conservative interests. Col. Jones, the Conservative candidate, is spoken of as making thorough and telling exposures of the swindling taxes, and base frauds and huge rascalities perpetrated by the "Ring" upon the people.

We confidently expect to have the pleasure of chronicling the Colonel's election by a handsome and increased conservative majority.

John F. Logan, Assistant Assessor of Revenue, seriously, if not mortally wounded a Mr. Plummer in the head, at the recent Ashe Court. Logan was arrested, so says the *Western Vindicator*.

The Wilmington *Journal* entered on its nineteenth annual volume with its Tuesday's issue. Long may the *Journal* remain, a faithful sentinel upon the watch-tower of liberty.

International Statistical Congress.—By reports which have reached Washington city it is learned that the Statistical Congress at the Hague was attended by delegates from all parts of the enlightened world, and that at its opening no less than twenty five governments were officially represented by delegates, generally men of eminence in statistical science, while many of them enjoy world wide reputations for learning. The delegates were entertained and feted with great liberality by the Netherlanders.

A priceless Saxon manuscript, the gift of Leofric, the first bishop of Exeter, which was said to have disappeared, has been found safe among other manuscripts in the Exeter Exchequer Chamber, in England.

N. C. Agricultural Society.—Persons wishing to have stalls for the sale of refreshments, on the Fair Ground, must obtain a license from the Secretary, Dr. Smith.

The books will close on Saturday next at 12 o'clock, M., when the use of the Ladies' Refreshment Saloon will be sold to the highest bidder among those who have obtained a license.

As there seems to be a misunderstanding with regard to the exhibition of articles at the Fair, we would state that any person can *exhibit* any article without being a member of the Society, but membership is necessary to compete for a premium.

Hon. D. M. Barringer, R. W. Wynne, Esq., Rev. W. E. Pell and Rev. Dr. J. B. Smith, have been appointed delegates to the Central Agricultural Society, which will hold its Fair at Henderson, during the week before the State Fair.

The Haswell Case.—The case of Henry Haswell, charged with the murder of O. R. Colgrove, in May last, was disposed of at the term of Jones county Superior Court, last week. The counsel for the State entered a *nole pros.* and Mr. Haswell was discharged.

The arrest of Mr. Haswell was a farce from beginning to end and we have no doubt that all who took part in it are heartily ashamed of themselves.

Would it not be well if some of the loyal officials of Jones county, would now make an effort to arrest the negro fiends who burned this poor man's house, while he was lying in jail under a false and trumped up charge? While every honest man will say it should be done, yet we are convinced that no steps looking to such a result, will be taken. Were Mr. Haswell a radical the case would be entirely different. —*Newbern Journal of Commerce.*

The Leaguers at Work.—On last Friday night, Mr. Wm. White, an aged citizen of Lenoir county, residing some miles from Kinston, went to his cotton gin for the purpose of inspecting that portion of his premises. While there he was fired upon by a party of negroes engaged in stealing cotton, and thirty five or forty buckshot are said to have entered his body. At last accounts but little hopes were entertained of his recovery.

The negro scoundrels who basely sought the life of this aged and inoffensive man, ran off without any attempt being made to apprehend them.—*Newbern Journal of Commerce.*

How the Yo Semite Valley was Formed.—How was this curious freak of nature formed? is a question that every visitor at least will ask. It is a puzzle for the imagination, and baffles even the scientific student. Prof. Whitney, of the State Survey, discusses the question elaborately in his admirable volume upon the Yo Semite, the Big Trees, and the high Sierras, which, with its maps, should be the companion of every one who visits these regions. He rejects the idea of water having worn it out; or that it was the work of a glacier; or that it was split open by a convulsion of nature; but concludes, as the only practicable supposition, that the bottom dropped out! There is no other way of accounting for what is gone, but that it is sunk below. It is not carried down stream; it does not remain in the valley—there would be no valley if it did; there are but comparatively small deposits, it would seem, of rock in the valley under the walls—no more than the waste by frost and ice and water, of a few generations at the most; and indeed, there seems no other supposition that meets the mystery than that the missing rocks are swallowed up below. It would appear, too, as if the chasm had not been long filled up to its present point, and that originally, and until within a comparatively recent period, the whole valley was a great deep lake.—This is a peculiar theory; it applies but rarely to the strange forms of nature scattered over the earth's surface; but the Yo Semite is a peculiar phenomenon; it justifies, it indeed demands a peculiar explanation, and no other fits it so reasonably as this.

Who are the Authors of Repudiation. By the by, in the many discussions about the repudiation of our public debt, I have been very much surprised to see how little notice has been taken of the fact that the very first lesson taught by the Republican party, after the war, was this very one of repudiation. It was a Republican measure—a *sine qua non* of the rehabilitation of the Southern States, even under provisional governments—that they should first formally and deliberately break the faith plighted to their creditors, at a time when they were part of a Government *de facto*, recognized as belligerent, and themselves were, under the very theory of the war corporate States of this Union. It is strange that the Democratic writers and orators should have forgotten this, often as the charge of repudiation has been thrust in their faces. Plighted faith in Georgia is as sacred, before God and man, as plighted faith in Connecticut, and to tell a man that it is sinful to break the one, when you have forced him at the point of the bayonet, to break the other, is what only Republican ethics can reconcile and sanctify.—*Baltimore Gazette.*

VIRGINIA.

Richmond, Sept 29.—The following is a correspondence upon the Senatorial question:

Headquarters First Military Dist., Richmond, Sept 24, 1869.

Hon. Sec'y of War, Washington, D C.:—

Dear Sir:—The question of electing Senators in the Congress of the United States by the Legislature which will assemble in this city on the 5th prox., is one of great present interest in the State, and many applications have been made for a decision on that point. The subject appears to be so free from difficulty that I have not hesitated to express the opinion, unofficially, that the election of Senators was authorized and necessary, to complete the reconstruction, as was prescribed by the law of July 25th, 1868, but that it was not proper for me to make a decision upon a question that addressed itself so directly to the discretion of the Legislature.

There are many, however, who are of the opinion that this action is in some way restrained by the opinion of the Attorney General of August 28th 1869, and I have the honor to request that the question, wether the Legislature of this State is authorized to elect Senators of the United States at the session which commences on the 5th of next month, may be submitted to the Attorney General for his opinion.

Very Respectfully Your Ob't Serv't.
E. R. S. CANBY,
Bv't. Maj. Gen. U. S. A. Comd'g.

Attorney General's Office, Sept. 25th, 1869.

The President—Sir: I have the honor to acknowledge the receipt of your letter of this date, referring to me for my opinion, a letter addressed to the Secretary of War, by Gen. Canby, dated Sept. 24th, which asks whether the Legislature of the State of Virginia is authorized to elect Senators of the U. S., at the session which commences on the 5th of next month, and desires that that question may be submitted to the Attorney General for his opinion.

The general views which I entertain of the functions of the Legislature of Virginia, elected in pursuance of the Act of Congress, of April 10th, 1869, have been already fully indicated in an opinion transmitted to the Secretary of War, under date of August 28th 1869. I came to the conclusion that the members of the Legislature were not required to take the oath referred to in section 9 of the statute of July 19th, 1867, in order to qualify them to act as such members. That it was competent, under the Legislature, to meet, organize and do whatever was required or allowed by the Acts of Congress as preliminary to the reconstruction of the State. But that it was not competent for them to undertake to enact laws or otherwise to assume any of the functions of the Government of the State, if organized without taking the oath above referred to, or if any of its members could not or did not, take that oath upon a careful consideration. I am now of the opinion that the election of Senator's like voting upon the 16th and 15th amendments to the Constitution of the United States, is a part of the action contemplated by Congress as preliminary to restoration of the State to its full relation to the Government of the United States, as one of the States of the Union.

The Senators thus elected would have no power or authority until the Senate of the U. S. should have passed upon the validity of their action, and admitted them as members of that body. Under the act of April 10, 1869, the election of members of the House of Representatives was permitted and has taken place, and when Congress comes to act upon the whole question of the Reconstruction of the State, it would seem equally proper that members elected to both branches of the National Legislature should present themselves and be ready for admission to seats in the respective Houses.

The election of Senators does not seem to me to transcend the action which comes within the limited or qualified purpose requisite to reconstruction, but rather to be essential to the completeness of that action, and I think the Military Commander should not interfere with or prevent it.

Very Respectfully,
E. R. HOAR
Att'y General

THE UTLEY COTTON PRESS.

A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of this PRESS astonishes all who see it, and the more so that a power so simple should so long have been unappropriated. With this Press, two men can do all the packing or pressing of a 500 pound bale inside of eight minutes; and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring and we would advise all persons wanting presses to withhold buying until they examine this

THE PRESSES are now being manufactured at the SASH AND BLIND FACTORY OF THOS H. BRIGGS. All are assured that as between this and any other there is no argument as to its merits over all others. With the Press, any ordinary workman can put them up. The patentee is here for a few days, and will take pleasure in explaining its merits.

The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

The National,	63,48
The Ætna,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, viz: 91 ins. It insured more Policies in the United States than any other one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 500 policies, received an income of seventy-eight thousand dollars, and possessed net assets summing up to something over two hundred and eighty-one thousand dollars; last year, 1868, it granted 13 837 new policies, more than any other Company except the Mutual Life; received an income exceeding six million dollars and had amassed solid, securely and profitably invested net assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."

The Daily Sentinel.

For the Sentinel.

At a meeting of the Directors of the North Carolina Real and Personal Estate Agency, held on the 31st day of August last, I was elected President. On the next day a drawing was advertised to take place on the 19th day of November, 1869, and my name published as President. This advertisement was made without consultation with me, and before the affairs of the Company had been looked into. Upon examining into them, I discovered that the assets were not sufficient to justify the announcement, and I immediately called a meeting of the Stockholders for the 16th day of September. At the meeting of the Stockholders on that day, I stated the condition of the affairs of the Company, as well as I could ascertain them from the books as I found them. The following resolutions were therefore adopted:

Resolved, That the President appoint a Committee of three to examine the books and papers of the Company, and ascertain, if possible, what disposition has been made of its funds.

The Committee under the resolution reported that they had not sufficient time for a thorough examination, and offered the following resolution:

Resolved, That the President be directed to employ two competent men to examine thoroughly into the affairs of the Company; to ascertain and report what disposition has been made of its funds; to put its present books into the best possible condition, and to open a new set of books upon such a system as shall secure the affairs of the Company from confusion hereafter.

This was amended so as to allow the President to appoint a third person, to be employed for not more than five days; and thus amended, passed.

The Chairman of the Committee also offered the following:

Resolved, That the thanks of the Stockholders are due, and are hereby tendered, to R. G. Lewis, Esq., Treasurer of the Company, for the faithful manner in which he has discharged his duties.

This was adopted, and it was then further

Resolved, That the Board of Directors be requested to make an assessment of three per cent. upon the stock of the Company, to be paid as follows: one per cent. within 15 days, and two per cent. on the 15th of October next.

Resolved, further, That the Stockholders who have already made payments of cash upon their stock, be allowed credit to the amount of such payments, upon this assessment, and if this assessment be not sufficient to meet the liabilities of the Company, the Board of Directors shall increase the assessment until it be sufficient.

Resolved, That the President is hereby requested to enquire into the matter of money paid to J. G. Hester, the late President, at Wilmington, for tickets and stock sold there, and to require the said J. G. Hester to pay said money to the Treasurer, or to account for it.

After the adjournment of the Stockholders, a meeting of the Board of Directors was called for Saturday the 18th inst. At this meeting, the following Directors, with the President attended: Robert G. Lewis Esq., and Messrs. J. G. Hester, J. C. Hester and Wesley Whittaker. After the proceedings of the Stockholders were read, R. G. Lewis Esq., offered the following resolution:

Resolved, That an assessment of three per cent. on the stock sold, be made—that one per cent of the same be paid on the 1st of October, one per cent on the 15th of October, and one per cent on the 30th of October.

Resolved, Further, that the Stockholders who have already made payments of cash upon their stock, be allowed credit to amount of such payments, upon this assessment. Mr. J. G Hester moved to amend by striking out all after the words "30th of October," and inserting the following:

Resolved, Further that the provisions of this resolution shall not apply to the stock sold by the late President in Wilmington, upon which 10 per cent was paid." This was accepted by Mr. Lewis, and the resolution, after discussion, passed.

The public can see from this action of the Stockholders, as well as of the Directors, that steps are being taken to raise money sufficient to place the Company upon a sound footing. I assure the public that every proper means in my power, as an individual, and as an officer of the Company, will be resorted to, to put right the affairs of the Company, and save those who have taken tickets from loss. No scheme will be advertised until this is accomplished, and then parties holding tickets can have the option to take money or exchange them for others. I feel a deep personal interest in the getting of the affairs of the Company straight, in addition to the interest I feel as an officer. My name was connected with it as one of the supervisors after the first drawing. While so acting I had no interest in the Company, and my only duty was to see that the drawings were fairly conducted, and I can assure the public that they were.

Very recently, before my election as President, I purchased some stock, but never knew anything of the financial condition of the Company until after my election.

SCHOOL BOOKS.

UNIFORM SYSTEM OF

TEXT-BOOKS

FOR NORTH CAROLINA.

Office Publishers' Sup't of Introduction,
Raleigh, N. C., Sept. 21, 1869.

A DEPOSITORY has been established at Raleigh, in charge of Mr. Alfred Williams, for the following books, which were adopted Aug 9th, 1869 by the State Board of North Carolina for uniform use in the Public Schools:

PARKER & WATSON'S NATIONAL PRIMER.
PARKER & WATSON'S NATIONAL SPELLERS.
PARKER & WATSON'S NATIONAL READERS.
DAVIES' ARITHMETICS.
MONTEITH & MCNALLY'S GEOGRAPHIES.
MONTEITH'S YOUTH'S HISTORY OF THE U. S.
REED'S SYSTEM OF PENMANSHIP.

THE NEW DESCRIPTIVE GEOGRAPHY OF NORTH CAROLINA will be ready about the middle of October, prox. The maps, &c., are now being engraved as rapidly as possible. This work will be furnished with Monteith & McNally's Series, without extra charge.

PROF. JEROME ALLEN'S COMPLETE SYSTEM OF MAP DRAWING will also be furnished to the Public schools with Monteith & McNally's Series, without extra charge.

The books will be supplied at exceedingly low rates to the Public Schools in the State.

Similar terms will be made accessible to private schools adopting the above named books uniformly.

Pupils attending the Public Schools will, in accordance with the State contract, be furnished with new copies of Monteith & McNally's Geographies and Davies' Arithmetics in exchange for old copies of Cornell's Geographies and Quackenbos' Arithmetics, which they may possess.

Books will be supplied, carefully packed and shipped, by

ALFRED WILLIAMS,
Depositary, Raleigh, N. C.

Teachers and Educators generally are respectfully invited to correspond with

"I am much pleased with both the Spellers and all the Readers; and as to the series of Geographies by Monteith & McNally, I have long need no others when these could be obtained.

From Rev. ALBERT SHEPEE, D. D., Rector of St. Mary's School, Raleigh, N. C.

RALEIGH, N. C.

I have examined the Geographies—Monteith's [No. 4] and McNally's [No. 5] and find excellencies in both, which eminently entitle them to a wide circulation. It is my purpose to introduce Monteith's [No. 4] into my school. I give it the preference for the information which it gives on the subject of Physical Geography. The maps and questions in both works seem to me to be admirable.

ALBERT SMEDES.

GOLDSBORO', N. C.

I find your books are in use in many Schools in this section. The teachers speak in the highest terms of your Readers and Geographies, and of Peck's Ganot in particular.

J. W. GULICK.

From Col. WM. BINGHAM, Prin. Bingham School, N. C.:

The introduction of so much valuable matter on the subjects of Physical Geography and Geology, and in a form so simple and intelligible, makes it (Monteith's Intermediate Geography) in my judgment, a charming school book.

"We shall introduce Davies' Bourdon, perhaps others of your books."

From Dr. CLOSS, Prin. Durham Academy, N. C.:

DURHAM, N. C.

I design introducing the present session McNally's Geography and Davies' University Arithmetic; also Boyd's Elements of English Composition.

Monteith's Geographies are excellent works, and I shall introduce them into my school.

STINCHON IVEY.

Prof. WM A. OBERHAIN, writing from Hillsboro' Military Academy, says:

The superior and durable style of binding of your works is a very great recommendation—one with which I have long been favorably impressed.

From J. E. DUGGER, Esq., Prin. Male Academy, Warrenton, N. C.:

WARRENTON N. C.

"Davies' Mathematics" was adopted by me in 1858, and, up to this time, I have examined no works superior to them as a whole.

I have examined with a view of introduction, "McNally's Geography" [No. 5] and "Peck's Ganot's Natural Philosophy." I consider them most excellent works, and shall put them in my boys' hands, at the earliest period. The Philosophy is truly an enticing work and must meet with universal commendation.

J. E. DUGGER.

From W. C. KERR, State Geologist of N. C.:

I regard Monteith's Physical and Intermediate Geography as one of the best books of its kind. It has several points of superiority over most primary Geographies; not the least of which, especially in the eyes of the juveniles, will be found in its attractive and very graphic illustrations. Another is the truly wonderful amount of substantial and really scientific information conveyed by these wood cuts, and the concise and lucid descriptions appended. But the chief excellence consists in this, that Geography is here treated from the only true and rational standpoint, viz: of Geology and Physical Geography; so that the learner arrives, by a natural and easy process, at the true conception of the earth as an organized whole; the designed result of successive changes and modifications, under the control of physical laws, constituting a true growth from a chaotic germ through manifold stages of progress, all pointing forward to its destined end as the home of living beings, and finally of man.

From Rev. G. D. BERNHEIM, Principal of Mount Amoena Female Seminary, Mount Pleasant, N. C.:

MT. PLEASANT, N. C.

I have introduced your National Series of Readers with great satisfaction to myself and to our teachers. We find them to be excellent, just suited to our purpose.

With Davies' Mathematical Series we have been long familiar, and can find no good reason for changing them.

In the Primary Department we have Monteith's Geographies, and in the advanced classes we have introduced Peck's Ganot, with much acceptance.

G. D. BERNHEIM.

From Prof. JOS. H. FOY, President Stantonsburg Seminary, the High School, N. C.:

WILSON, N. C.

I have carefully examined the claims of the different Series of School Books most prominent before the public at this time. I have tested the merits of many of them in the school and lecture room, and feel no hesitancy in pronouncing the National Series of Readers and Spellers" the best with which I am acquainted. I shall henceforth use no others in my school, and I shall furthermore use my influence to secure their adoption into other Seminaries in this section.

I use Davies' Mathematical Series in my school. I consider his works incomparably superior in many particulars, even to Stoddard's Course, which is saying a great deal. In fact, I consider it the highest encomium in my power to bestow.

I use Monteith's Series in my school. They afford a gradual but thorough and systematic progression, from the simplest rudiments of science, up to a development sufficiently exhaustive for all ordinary educational purposes. Their very superior merit has led me to discard ——— which stands next best on the list.

McNally's, the fifth book of the course, is decidedly the *chef d'oeuvre of* Geographies. No competent instructor can examine it for an hour without being struck with its extraordinary merit.

J. H. FOY

From the Statesville, N. C. *American*, February 20th, 1868.

We would call the attention of Teachers in Western North Carolina to the valuable School publications of this firm, which are equal to any in the Union.

Messrs. Barnes & Co., of New York, are now issuing large editions of these Standard School Books for the Southern States. The series consists of the National Primer, or Word Builder, National Elementary Speller, The National First 2nd 3rd, 4th and 5th Readers. This firm will allow no competition in the price of books published by them, which are among the best in the States.

UPWARD AND ONWARD!!

WHY IS IT BEST TO INSURE IN THE

BROOKLYN LIFE?

BECAUSE,

AMONG OTHER REASONS, IT IS THE ONLY COMPANY IN THE UNITED STATES WHICH PRESENTS THE GREAT FEATURE OF GUARANTEEING DEFINITE

CASH SURRENDER VALUES,

IN CASE A POLICY IS FORFEITED FOR NON-PAYMENT OF PREMIUM.

ALL POLICIES

Are non-forfeitable after two full Annual Premiums have been paid.

The policy-holders of this Company may travel or reside where they choose—anywhere on the Globe.

The BROOKLYN LIFE has paid, and now pays to its policy-holders, LARGER DIVIDENDS than ever before paid by a Life Insurance Company.

DIVIDENDS ARE PAID IN CASH,

or applied to the permanent increase of the policy, or left with the Company to accumulate at interest, in either way, at the option of the policy-holder.

GULLETT'S COTTON GIN.

ON EXHIBITION AT MY STORE, A "GULLETT'S STEEL BRUSH GIN."

The Gin is of a very superior style of workmanship, gins more Cotton in a given time than any Gin of the same number of saws; picks the seed cleaner; leaves no motes or nap; does not waste the lint by throwing it over the walls of the room where it is being ginned; does not cut the lint, but brings it out in beautiful bats.

Planters desiring Gins would do well to buy one of Gullett's, as each one is guaranteed, and if it does not have the advantages, over other Gins, named in this advertisement, after fair trial, it will be no sale.

The "Gullett Gin" has been awarded the Premium at the several STATE FAIRS of Louisiana, Alabama and Mississippi.
